# Business Overview

---

- **We have developed a unique Business model, that is a Low Risk, Cost Effective opportunity, while still generously rewarding for effort and guaranteed monthly income\*.**

We would love nothing better than to have like minded individuals who care about improving our communities to come alongside and partner with us. Our products and services can make a difference to peoples lives and that's why it is important for us to make our product easily available to as many families as possible.

Our Distributors have a very important role to play by enabling more people to access to the Safe Family Cards Product Range and Community Safety Seminars.

Of course, making money is part of every business, but if you enjoy what you do and believe you are making a worthwhile contribution to your local community - then really the money is just the "icing on the cake".

As an Independent Distributor you would be a part time operator ( 10-20 hours per week - more if your lifestyle permits) . As your business grows it begins to generate recurring income enabling you to have even more flexibility with your time.

- *\* income guarantee 24 months.*
